Crypto Lover

## JOB OBJECTIVES

Technical Writer

Researcher / Analyst

Contents Creator

## INTEREST

Crypto Community Activity

Offline Meetup / Networking

Stablecoin Yield Farming

Bitcoin Mining Firm Trading

Quant Trading Strategy

## EDUCATION

**BS Program @ POSTECH (Pohang University of Science and Technology),**  
Industrial & Management Engineering (Minor: Entrepreneurship)

MAR 2021 - PRESENT

## PUBLICATION

**Co-Author @ Book 'The Age of Digital Assets is Coming'** (ISBN: 979-11-92445-50-2)  
OCT 2023

## MY REPORTS (ABOUT BLOCKCHAIN TECHNOLOGY, IN KOREAN)

[ZKP부터 SP1 Hypercube까지](#) - in 2025-2 PDAO Study

[Basic HotStuff에 대한 이해](#) - in PDAO Blockchain Consensus Study

[Super Simple Summary about Crypto-Blockchain\(KOR\)](#) - in PDAO Regular Offline Meeting

[Zero-Knowledge Technology in Solana Ecosystem\(KOR\)](#) - Team Project in PDAO

[Unstoppable Ethereum - 2023 이더리움 업그레이드 정리](#) - Report in Bithumb Research Center

## WORK EXPERIENCE

### Organizer (Head) @ PDAO

JAN 2025 - PRESENT (11 MONTHS)

PDAO Is An Open Crypto-Blockchain Community Based At POSTECH.

- Served as the head of the community organization.
  - Planned and managed 3 offline events (over 150 participants total, co-hosted with 8 crypto companies/foundations).
  - Operated and participated in internal research projects with industry professionals (semi-annually).
  - Secured hackathon supporter/partner roles (Monad Blitz, Sui-mming Seoul) and served as hackathon staff/participant.
- Conducted PR and communication with various crypto companies, organizations, and university societies to create project opportunities for organizational development.
  - Secured grants totaling approximately \$6,000 during the period of activity as Organizer.
- Managed the organization's LinkedIn, X, Medium, and YouTube accounts.
- Authored 9 reports, held 3 online/offline sessions, and participated in 2 hackathons during 2025.

### System Developer @ ROK Air Force (Military Service)

MAR 2023 - DEC 2024 (21 MONTHS)

Fulfilled Military Service As A System Developer In ROKAF IT Development Departments (ICT Office In Logistics Command And Intelligence Information System Management Group)

- Managed and maintained logistics system databases for all Air Force departments
- Researched aircraft fault detection based on time-series data analysis
- Served as Squad Leader (2024.08.~ 2024.12.)

### Researcher (Intern) @ Bithumb

SEP 2022 - MAR 2023 (6 MONTHS)

Bithumb Research Center Is A Research Organization Providing Global Virtual Asset/Investment Insights To Clients.

- Assisted with the 'Crypto Insights' report series on macroeconomics/virtual assets (8 reports)
- Published 'CRYPTO NOTES' series on blockchain industry research (2 reports)
- Presented a session at the offline seminar "Crypto Insight meetup" (Topic: 2023 Ethereum Upgrades)
- Wrote and delivered daily industry trend reports for the FIU (Financial Intelligence Unit, under the Financial Services Commission)
- Appeared in official YouTube content ('Bitconomy report', 'Crypto talk'), reviewed scripts, and assisted with video editing

## STUDY

### Undergraduate Researcher @ POSTECH FBDA Lab

JUN 2025 - PRESENT (5 MONTHS)

- Studied high-frequency finance & high-dimensional statistical analysis regarding time-series financial data
  - Implemented a virtual asset clustering & portfolio optimization model based on high-dimensional statistics

### Undergraduate Researcher @ POSTECH DPNM Lab

JUN 2022 - AUG 2022 (3 MONTHS)

- Took 4 MOOC(open lecture) series about crypto-blockchain and participated in weekly lab meeting discussions
- Attended crypto/blockchain conferences such as KBW2022.

Music

Cooking

## SKILLS

---

Programming Language
C++, Python, SQL
Developer Tool
Git/Github
Data Analysis
R, Excel
Documentation & Design
Figma, MS Office
Agents
Codex, Gemini, Claude
Communications
Event Planning, Community Management

## AWARD, SCHOLARSHIP, GRANTS

---

### 4th prize in Monad Blitz Seoul @ B-Harvest, Monad, Chainlink

JUL 2025

### Korea 3rd in International Quant Championship @ WorldQuant

APR 2025 - JUL 2025

### Finalist in Promising Student Startup 300 (U300) @ Ministry of Edu, SICT

APR 2022 - NOV 2022

### Local Talent Scholar (Full Scholar) @ KOSAF

MAR 2021 - PRESENT

### \$500 personal Grants @ Superteam Earn

APR 2025 - PRESENT

\$200 Granted By Writing Solayer's Product Contents (In Korean)

\$300 Granted By Writing Constructive Feedback Report About BICF Field Note

## PROJECTS

---

### MintMe - Web3 PR Platform

JUL 2025, Conducted During Participation In Monad Blitz Seoul

- MintMe is an on-chain SocialFi platform where users can create and exchange personal Business Card NFTs.
- Project Contribution
  - Project idea planning, team coordinating (workflow design), documentation, and final pitch.

### Robust Alpha Generations

APR 2025 - JUL 2025, Conducted During Participation In International Quant Championship

- Developed robust Alphas (algorithmic trading strategies) on the WorldQuant Brain Platform.
- Project Contribution
  - Developed quant investment signals based on fundamental financial data
  - Improved Alpha performance through iterative signal reconstruction and validation
  - Participated in the final presentation for the Korea regional finals, presenting an alpha strategy based on fundamental data.

### NFTHub - NFT Asset Portfolio Platform

JUN 2022 - NOV 2022, Developed For The Promising Student Startup 300

- NFTHub is a portfolio platform for NFT investors, benchmarked against stock portfolio platforms using MyData. Users can check the value of NFTs and virtual asset portfolios in their wallets.
- Project Contribution
  - Led a team of 3 developers as the Project Owner (Team Leader).
  - Developed a business model through initial market analysis.
  - Led end-to-end responses for government startup programs like U300 and Innopolis Campus Project.
  - Participated in the 2022 Industry-University Cooperation EXPO poster exhibition.

## ORGANIZATIONS

---

### Member @ POSTECH CCBR

- Planned and operated crypto-blockchain related activities within POSTECH.
- Led connections between alumni crypto companies and POSTECH members (especially undergraduates).

### Member @ Superteam Korea

- Selected as 2025 Guild Lead grant program and supported planning and operation of Solana Ecosystem projects (offline events, research, etc.).

### Member @ NinjaLabs Korea

- Served as staff for KBW side events.
- Currently planning a research project on the Injective Ecosystem.

### Genesis Member @ PDAO

- Participated in the Launch Project (Jun 2022-Dec 2022), performing general tasks in the dev-NEAR and strategy teams.

## OFFLINE MEETUP

---

- (2025) Panel Speaker in "AI + Blockchain Autumn Camp - Korean Offline Workshop"
- (2025) Host "Blockchains for TradFi : 전통금융과 블록체인의 만남"
- (2025) Host & Speaker "PDAO in Seoul!"
- (2025) Host "Dive in Crypto-Blockchain in Pohang"
- (2023) Speaker "Crypto Insight Meetup"

## CERTIFICATE (IN KOREA)

---

### FINANCE

Certified Investment Manager  
Certified Accounting Manager  
Financial Planner  
Certified Foreign Exchange Specialist I

### Computer Science

SQL Developer (SQLD)  
Advanced Data Analytics Semi-Professional (ADsP)  
Industrial Engineer Information Processing

### General Office Work

Secretarial Administrator Level-1  
Word Processor Specialist  
ITQ OA Master
